TANGRAM BY VANNI

wisdom is in the eyewear

Tangram is an age-old Chinese puzzle made up of a square divided into seven different geometrical shapes, each in one colour. The art of the game lies in creating as many complete figures as possible, using combinations of these parts. "A Tangram champion is a champion of talent and wisdom", runs the legend.

VANNI's Tangram glasses add a touch of stylish wisdom to the expression. Made from slab acetate devised by the **VANNI** style centre, an exclusive product, the Tangram texture is all cubes split into irregular pyramids, alternating against a deep crystalline background which may be see-through or solid and one of many colour options.

Tangram acetate starts from different block colours, largely black/crystal, but also brown/electric blue, light blue/violet, lime/grey, turquoise/orange and maroon/purple. The colour contrasts bring out the overall effect of the material and, seen against the light, generate a kaleidoscope of reflected colour.
